

YEAR 1 HERALD

11TH SEPTEMBER 2009

Numeracy- We are learning to place numbers on a number line. You may wish to order magnetic fridge numbers along a line, or use the bath crayons to write the numbers in the correct.

Literacy- We are learning to describe the senses. As you travel around (the supermarket, the playground, the park) discuss various things the children hear, see, smell, feel and taste (obviously within reason!!). Get them to think about a good describing word, e.g. I can hear a loud aeroplane etc.

Science- we are learning about healthy food. When in the supermarket, discuss various food items and see if the children can sort them into healthy/not so healthy parts of the trolley. They should know that it's ok to have some not so healthy food every now and again!

PSHE- We are learning to remember and follow the school rules. Spend some time talking to the children about different rules in school- rules about carpet time, playtime and lesson time.

PE- We are learning about our new PE rules. Again, spend some time asking the children how they have to get changed and sit in the hall etc. Our emphasis is on doing PE with our bodies and not our voices.

Notes

Please can we remind all parents to name EVERYTHING that finds its way into school!

We try to keep the PE kits packed away until various items are needed, but you would be surprised what can be left over at the end of a session!

Please could you also make sure that the children have appropriate PE kit for both indoor and outdoor PE (blue shorts and white t-shirt for indoor and a blue or black tracksuit, white t-shirt and plimsolls/trainers for outdoors).

Please remember that reading books will be changed every Monday and Thursday. There will be a box available in the conservatory to place the book and record should it need replacing on these days.

Thank you.

THANK YOU!!! THE YEAR 1 TEAM
